Notes:

The services and programs that this district provides directly relate to the health and welfare of our community. Districts statewide fill a niche that the private sector does not. Over the 20+ years our Household Hazardous Waste program alone has kept hundreds of tons of chemicals, oils, pesticides, etc., out of the environment. The tonnages reported in all recycling categories represent resident participation which reflects the care and concern for their environment...for \$12.00 annually residents can participate in any of the programs offered...what a bargain!
