

HENRY COUNTY OUTPATIENT DRUG TREATMENT PROGRAM

TISA

Therapy Intervention for Substance Addictions Program

[This is a new outpatient treatment program that that provides an opportunity for Henry County Residents with drug addiction issues.]

Sponsored by A.R.I.E.S. LCC of Henry County in cooperation with ICAP and other community agencies

BASICS

*Includes 9 weeks of group sessions
1 day a week (1 ½ hr sessions)

*Individual sessions – minimum 3 per individual
*Individual assessment

This is a motivational enhancement therapy program that helps individuals resolve their issues about engaging in treatment and stopping their drug use. This will include the development of individual plans for change. This treatment will be conducted by a professional (PsyD, HSPP) individual.

For this program we are interested in individuals who want to address these issues without being required by another agency or group. They may be referred by an agency or individual.

Participants must enter the program on the first date of the group series. Upon receiving the application for this program, the applicant will be contacted for an interview prior to the start of the group sessions. The cost of the program is very minimal.

If you would like to be part of this outpatient program...complete an application and email it to oveach@henryco.org or mail to Olene Veach, 2881 No. Co. Rd. 300 West, New Castle, IN 47362. Contact Olene Veach: oveach@henryco.org or 765.521-7032 or 765.533-4205 for more information and/or an application form. *(We need good contact information.)* We are looking to start the next series in late Summer.

“Getting help for addiction is one of the most important choices you can make for yourself.”
