April 6, 2021

At this time, the Henry County Commissioners and local health officials will not establish any requirements that are more restrictive than outlined in Executive Order 20-09. The Henry County Commissioners and local health officials will convene and re-evaluate safety measures anytime the county metrics move to a more restrictive category. We encourage everyone to review section 4 of EO 20-09 which is entitled, "General Requirements for All Hoosiers and Individuals in the Hoosier State."

Executive Order 20-09 can be found in its entirety at: <https://www.in.gov/gov/files/Executive-Order-21-09-Modification-of-County-Based-Restrictions.pdf>

Face coverings, as outlined in EO 20-09, shall be worn in the following areas:

1. all state governmental buildings, offices, and facilities
2. outside on state property when 6 feet of distance cannot be achieved and maintained with individuals not residing in the same household
3. at a COVID testing or vaccination site
4. at a K-12 educational facility, see paragraph 8 of EO 20-09 for more details on K-12 facilities

Further exemptions to wearing a face covering can be found in section 4f of EO 20-09.
